

ADDENDA

REVISED BUDGETS FOR CERTAIN MEASURES

Ministère du Développement durable, de l'Environnement et des Parcs, in conjunction with the other ministries and agencies concerned, has made improvements to the 2006–2012 Climate Change Action Plan. These changes were made with a view to assuring more efficient management of the Green fund. They promote Québec's goals in the fight against climate change by revising the budgets available for various measures and by reallocating the interest accrued for these measures within the Green fund.

Reduction or avoidance actions (1)	Total cost of actions for the 2006-2012 period(M\$)	Responsible ministries / organizations
1. Implement a financing program aimed at energy efficiency for individuals, industries, institutions, companies and municipalities in Québec	207,0	AEE
2. Amend Québec's Building Code to improve energy performance of new buildings and homes built in Québec	4,5	AEE, RBQ
3. Utilize the necessary mechanisms to require manufacturers of light-duty vehicles sold in Québec to meet a GHG emissions standard starting in 2010	-	MDDEP
4. Aim to have gasoline distributors include a minimum of 5% ethanol in their total fuel sales by 2012	30,0	MRNF
5. Support municipalities taking GHG emission inventories and action on climate change and in adopting regulations to offset the effects of idling motors	16,2	MDDEP
6. Encourage the development and use of public transit	731,8	MTQ
7. Encourage the development and use of transportation alternatives	46,8	MTQ
8. Encourage the implementation of multi-modal marine and rail transport projects	60,0	MTQ
9. Implement a government support program to improve energy efficiency in road, rail and marine transport	46,4	MTQ,AEE
10. Adopt a regulation requiring mandatory use of speed limiting devices on all trucks and setting the maximum speed for these vehicles at 105 Km/hr	-	MTQ
11. Reduce GHG emissions in Québec's industrial sector	7,0	MDDEP
12. Implement the Regulation respecting halocarbons	-	MDDEP
13. Implement the Regulation respecting the landfilling and incineration of residual materials (REIMR)	-	MDDEP
14. Financially support the capture and incineration or valorization of biogas generated by landfill sites not so required within the framework of the REIMR	20,00	MDDEP
15. Set up support programs to reduce GHG emissions in the agricultural, agro-food, forest and municipal sectors	112,0	AEE, MAPAQ, MDDEP, MDEIE, MRNF
16. By 2010, improve the energy efficiency of public buildings by 10% to 14% below the 2003 and reduce fuel consumption of government departments and public organizations by 20%	0,3	AEE
17. Require each government department to develop a program to reduce GHG emissions generated by employees commuting to work	9,0	MDDEP, MTQ
Sub-total	1 291,0	

1) All measures that have no allocated costs are funded from within the regular budgets of ministries and organizations.

Reduction or avoidance actions (1)	Total cost of actions for the 2006-2012 period(M\$)	Responsible ministries / organizations
18. Support a variety of public awareness and partnership initiatives	46,5	MDDEP
19. Implement a training program for Québec enterprises and organizations on various systems of CO ₂ credits	3,0	MDEIE
Sub-total	49,5	
Research, development and technology deployment	Total cost of actions for the 2006-2012 period(M\$)	Responsible ministries / organizations
20. Set up programs to support research, development and deployment of new technologies aimed at reducing and sequestering GHG	137,0	AEE, MDDEP, MDEIE, MRNF
Sub-total	137,0	
Adaptation measures	Total cost of actions for the 2006-2012 period(M\$)	Responsible ministries / organizations
21. Set up mechanisms to prevent and mitigate the impact of climate change on health and public security	35,2	MSP, MSSS
22. Consolidate climate, hydric, subterranean water resource and air quality monitoring networks	25,2	MDDEP
23. Perform various evaluations and research related to permafrost thawing, problems of coastline erosion and adapting to the impacts of these climate changes	6,6	MTQ
24. Determine the vulnerability of Québec forests and the forest sector to climate change and incorporate the anticipated effects of these changes into forest management	6,0	MRNF
25. Reinforce water and air quality management procedures	16,0	MDDEP
26. Support the Ouranos Consortium program	10,0	MDDEP
Sub-total	99,0	
	Total cost of actions for the 2006-2012 period(M\$)	Responsible ministries / organizations
Costs related to coordinating the implementation of program measures, development and follow-up of funding and accounting mechanisms	4,1	MDDEP
Sub-total	4,1	
Total	1 580,6	

1) All measures that have no allocated costs are funded from within the regular budgets of ministries and organizations.
