

Summary table of the activities management in the territorial reserve for protected area purpose in the Kamouraska sector pursuant to the legislation and regulations of Québec and Canada

Activities	
<b>Mining, gas, and oil activities</b>	P
<b>Renewable energy generation</b>	P
<b>Waste disposal</b>	
Ships' and boats' ballast water discharges	P
Discharges of pollutants (hydrocarbons, garbage, organotin compounds)	P*
Discharges of municipal or industrial wastewater or from landfills	SA
Management of hazardous materials	SA
Activities likely to result in contaminant discharges in the environment	SA
<b>Infrastructure maintenance and development activities</b>	
All buildings or any other interventions in wetlands and hydrous environments	SA**
All activities in fish habitats	P*
<b>Recreational fishing (sustainable)</b>	**
<b>Commercial fishing (sustainable)</b>	
Commercial fishing for freshwater species and anadromous and catadromous species: restrictions concerning the fishing gear, size, the quantity of the catch, and the period	*
Commercial fishing for marine species: restrictions concerning the fishing gear and the period	*
Commercial fishing for forage species, centred on conservation	*
Commercial fishing for new forage species, which does not now exist	*
<b>Aquaculture</b>	*
<b>Scientific research</b>	SA*
<b>Educational activities</b>	SA*
<b>Traditional Indigenous pursuits</b>	A*
